

# Tilt-Away Beds

A great place  
in a small space...  
adaptable living design

# The lifestyle choice that makes the most of your living space

## So simple, it's ready in an instant

Your Tilt-Away Bed can be stowed 'ready made' with pillows, blankets even a doona, all instantly accessible and at your finger tips. There is no longer any need to make up a room, or find sheets and a pillow for that uncomfortable foldaway in the garage.

Every Tilt-Away Bed movement is an original "Murphy"® mechanism, internationally renowned for their safety, ease of operation, precision engineering and guaranteed reliability. The patented mechanism has been developed so that Tilt-Away Beds can be effortlessly operated by the elderly, children and the disabled without assistance.

## Compact comfort, without compromise

Accommodate occasional guests without compromising your valuable living space or lifestyle by simply developing your family or games room, home office, study or TV room into a practical spare bedroom. Your Tilt-Away Bed can be fitted vertically to any wall, or configured horizontally below a window. When stowed they occupy just 40cm of your valuable space.

You will sleep in comfort every night, and your guests won't have to compromise on comfort either, as Tilt-Away Beds accept standard single, double, queen and even king size luxury mattresses. Details and specifications are explained within the interior of this brochure.

**Space is always a premium, and need never be wasted when your Tilt-Away Bed converts any living space into a comfortable bedroom.**

## Liberate your living space

It is easy to upgrade that unoccupied bedroom into an orderly study, your practical home office, a great hobbies room or your new home theatre, without sacrificing the comfortable visitor accommodation you always wanted.

Why put up with a cumbersome traditional bed or that uncomfortable, outdated Sofa-Bed cluttering up your home. Liberate your living space and reclaim that worthless spare bedroom with an inspired Tilt-Away Bed solution.

## Solutions to suit your style

Your local Tilt-Away Bed specialist can assist you with selecting a finish to complement your décor and existing furnishings, arrange custom finishes and matched Tilt-Away accessories, or you may select a natural finish you can decorate yourself. A Tilt-Away Bed consultant can even suggest and supply a luxury mattress to meet your budget prior to arranging for your Tilt-Away Bed's professional installation.

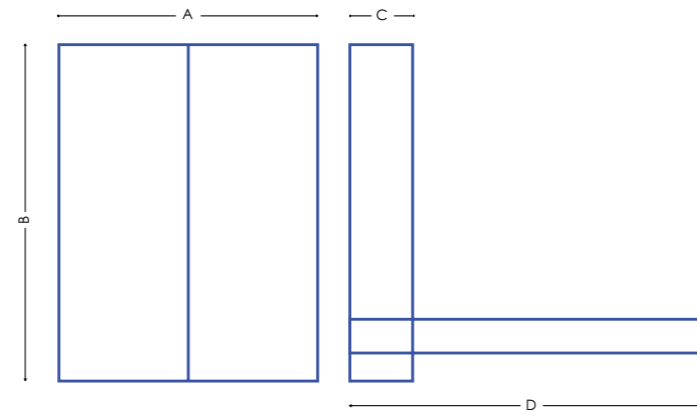

# Your most elegant space-saving and smart bed investment

## The professionals' solution of choice

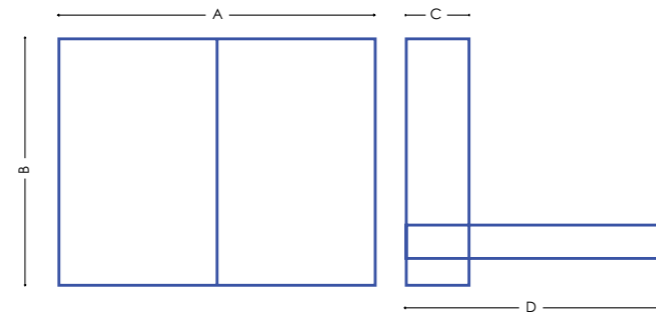

Wherever the lack of room is an issue a Tilt-Away Bed is the ideal solution. Inclusions of choice for savvy developers and property investors, Tilt-Away beds create adaptable living space, increasing resale as well as rentable values. Tilt-Away beds are enjoying increased recognition from innovative architects and creative interior designers seeking the most cost-effective utilisation of limited space in serviced apartments, Motel & Hotel suites, holiday villa's, retirement accommodation, resorts and studio apartments in addition to traditional homes.

Vertical End Tilt

Horizontal Side Tilt

## Your style, original design & uncompromising comfort

The unique dual purpose Tilt-Away leg support folds away within the cabinet to secure the mattress and bedding when concealed within your custom designed wall unit. The leg's rubber feet won't mark or damage you floor surface, and its angled design avoids painful toe stubs.

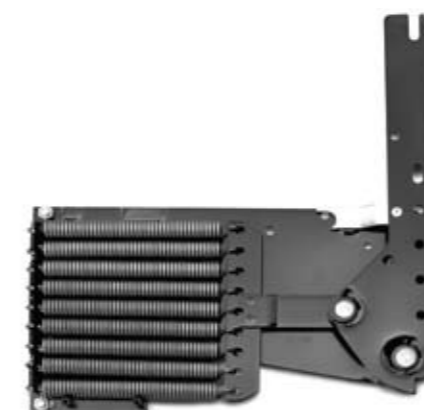

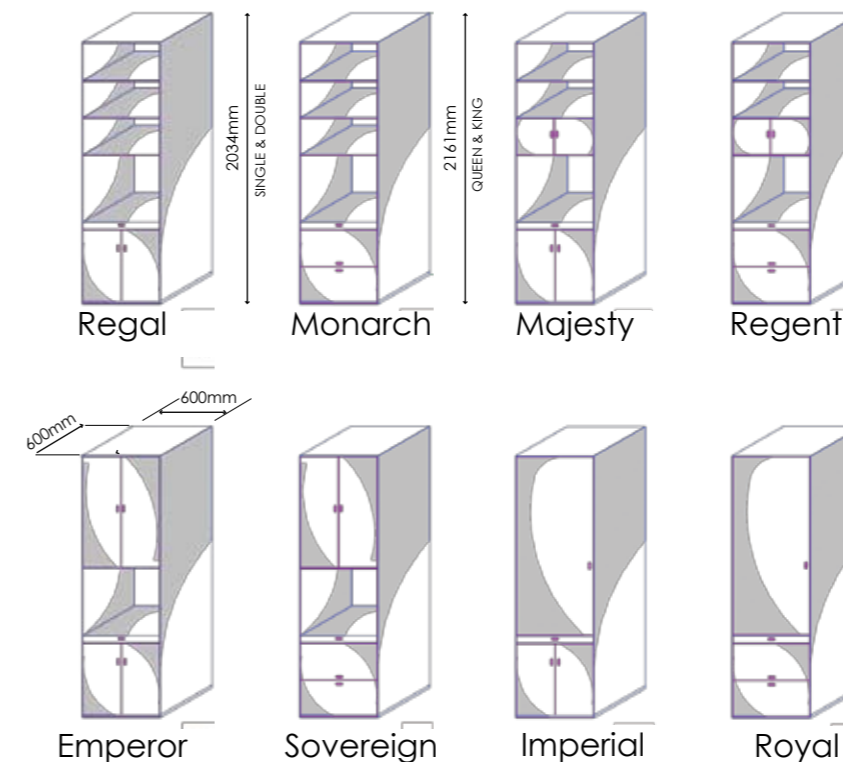

The extended leg height option elevates your bed's height by 60mm, and equips your bed to accept the deepest luxury mattresses. Tilt-Away's uncompromising style and comfort means you will never have to make excuses about your guest accommodation again.

## Counter balanced for safe & reliable finger-tip operation

Raising and lowering a Tilt-Away is an effortless operation, as beds are constructed around sophisticated spring-lift mechanics. The world-class (ISO 9002) construction quality of our exclusive Murphy mechanism supports a dead weight loading of over 600 kilograms and exceeds commercial standards. An unmatched quality level set by Tilt-Away for over 30 years, and your guarantee of reliability supported by the Australian industry's only fifteen year manufacturer's warranty.

Vertical End Tilt	Width A	Height B	Depth Bed Closed C	Depth Bed Open D
Single	1050	2034	403	2146

\* For Vertical Tilt-Away Beds

## Matched side cabinets and furniture will complement your Tilt-Away Bed's cabinet.

All side cabinets are made to order and feature a sturdy pull out bedside table. Any Vertical Tilt-Away Bed can be elegantly framed with either a matched or a complimentary pair of side cabinets. Alternatively, your Tilt-Away Bed can be configured with any of the eight standard single cabinets on one side.

There are no less than sixty eight standard configuration options in each bed size, plus over fifty stock finishes to suit any interior.

Tilt-Away can also help you design your very own custom cabinets, matching book shelves and desks, then manufacture them with cupboards, draws and/or shelves to your required size and precise specification.

Tilt-Away Bed products are subject to continual development and improvement, therefore specifications may alter. Styles, materials, finishes and configurations illustrated are representative only and therefore may not be available at time of purchase.

# Make a great place in a small space

## You're spoilt for choice

Individually designed and fabricated to suit your needs, a Tilt-Away Bed is simply your most attractive solution. Select traditional styling or sleek contemporary lines, as all cabinetry is made to order in a variety of colours and finishes to suit your budget and interior.

In addition to the usual choice of bed size, you can select its height, horizontal (side) or vertical lift orientation, even whether you would prefer to supply your own mattress. If you're accomplished at DIY you may choose to build your own, we supply the bed rails, leg, the exclusive hinge mechanism, cut list, instructions and leave you to it. You can also opt to order your Tilt-Away Bed complete and ready to assemble, everything you need, except the screwdriver, or just relax and let us look after the lot!

## Practical options for your living space

The side tilt (horizontal) option is ideal below a window, when ceiling height is restricted and where space is critical. Tilt-Away Beds make perfect sense in larger homes too. If you have the extra floor space, why waste it? Your Tilt-Away Bed tilts easily into place to create an entire 'other room' within your existing floor plan. Fixed only to the wall, it can be easily relocated as well.

## Side cabinets and matched furniture

As all cabinetry is crafted locally, Tilt-Away can supply a range of matched side cabinets and peripheral furniture to complement your bed's cabinet and finish. Each of our eight popular side cabinet designs features a retractable bed-side table, cupboards, drawers and/or shelves to suit your needs. Cabinets can alternatively be custom configured to order, you can combine matched book shelves or a desk that epitomise your very own style, plus makes the best use of available space without compromising your room's functionality.

Should you have a particular cabinetry requirement or would like to have a Tilt-Away bed system demonstrated, visit your nearest showroom to experience the tried and trusted solution that has been making the most of your living space and lifestyle choices for more than 30 years.
